

## SEED STITCH

©2007 Sandra Petit

note: I didn't invent the seed stitch. This is just my interpretation of how to work it.

Ch an even number

Row 1: single crochet in second chain from hook and in each chain across

Note1: You may use either the back hump method of working into the foundation chain or work under top two loops -- whichever method you prefer.

Note2: Row 1 is your RIGHT side. If you have trouble telling front from back, you might want to mark this side.

Row 2: ch 1, turn, single crochet in first single crochet, \* chain 1, skip next sc, single crochet in next sc, repeat from \* across. You should finish evenly, with a single crochet in your last stitch.

Row 3 : ch 1, turn, single crochet in first single crochet, single crochet in chain-1 space, \*chain 1, skip next single crochet, single crochet in next chain-1 space, repeat from \* across row to last stitch, single crochet in last stitch

Row 4: repeat row 2 and 3

Note - every row begins with a single crochet in first stitch. After the first stitch, you will single crochet if the next thing is a chain space, and you will chain-1 and skip it if the next thing is a single crochet.

Last Row: ch 1, turn, sc in every sc and every ch-1 space across row.

Finish off.
