

# V-Stitch and Inverted V-Stitch

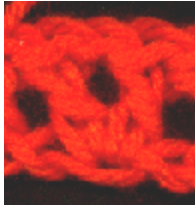

Copyright 2003 Sandra Petit, <http://www.crochetcabana.com>

A V-Stitch is a group of stitches that look like a "V" or a triangle. (dc, ch 1, dc) is an example and most common in my experience. The inverted V is an upside down V.

Procedure for the V-Stitch:

**Double crochet in next double crochet.** This will be the first leg of your V-stitch.

**Chain 1, work another double crochet in the same stitch.** This is the second leg of your V-stitch. You have now completed one V-stitch. See how easy that was?

Completed V-Stitch.

Now on to the **Inverted-V-Stitch**. This is a bit more work. ☺ We will work an inverted V into an existing V. **Chain 2** for height

Step 1: YO, insert hook under both loops of first leg of first V-stitch on previous row, yo, pull through (3 loops on hook)

Step 2: yo, draw through 2 loops (2 loops on hook)

Step 3: yo, insert hook in second leg of V-stitch from previous row

Step 4: yo and draw through (4 loops on hook)

Step 5: yo, draw through two loops (3 loops on hook)

Step 6: yo, draw through all three loops - Inverted V-stitch completed!
